Attached is AQPD's response. Edits were done to schedules as needed and projects/actions added that were missing. Note I also ensured they match the ADP Tracker/SCOUT and the priority levels were assigned by Scott Mathias of our division.

I am leaving the office shortly. If you have any questions on the priority levels assigned, please contact Scott Mathias. I will back in the office on Monday.

Reg Team,

Attached is a revised version of the weekly ADP report to reflect the current status of OAQPS Rules. OAR would like to see all rules and non-regulatory items that we are expecting each month throughout the administration. I have updated all the dates using RLSO format to reflect current timelines, please make sure track changes is activated if you need to make any edits to this document. Also, check over your items to ensure they are correct, I have used ADP tracker, OAQPS Tracker, and information from our SCOUT meetings to update this document so it should be near completion.

The last request from the front office for this document is to prioritize actions in reference to workload. Use the "Priority" column to categorize actions based on workload using high, medium, or, low. Please have this document back to me by 11am on Friday so we can send it through OAQPS management for approval. I apologize for the short turnaround.
